

A new report called **EA 08: Emergency Assistance Applications Pending with a Payment Delay Exception** has been published to the DCF / WISDOM / Employment Programs / Emergency Assistance / New EA System (Beginning 1/1/2021) folder in WebI.

**Background:** This report was created to identify all individuals whose Emergency Assistance applications are pending with a payment delay exception. It is similar to EA 06 and EA 06b in that it returns the same columns, but different in that EA 06 and EA 06b identify pending EA applications with an overdue payment delay exception.

**Purpose:** To allow agencies to identify all individuals whose Emergency Assistance applications are pending with a payment delay exception.

**Description of Report:** This report contains a single tab. The data is grouped first by agency, then by worker. It includes Request Number, Application Date, Status, Deadline Date, App Age, emergency type, applicant PIN, and applicant name.

**How to Use the Report:** This report has two prompts. W-2 Contract Agency is required. Application Year-Month is optional. Users must select at least one contract agency, and they may choose one or more Application Year-Months.

**Prompts:**

- W-2 Contract Agency (required)
- Application Year-Month (optional)

For more information on this report, please see the documentation published in the DCF / WISDOM / Employment Programs / Emergency Assistance / New EA System (Beginning 1/1/2021) / EA Report Documentation folder in WebI.
